

## Certificate: CE

Voltage :	220-240V~50Hz
Power :	3300 Watt
Temperature setting :	Up to 800°C
Time setting :	0-99 hours
Size :	W 42,5cm x D 44,0cm x H 29,5cm
Weight :	18 kg

Grid size :	32,5 x 26,5cm
Material grid :	Cast iron

Electric O.F.B. with infrared heating elements

The heating elements made from quartz have a power output of 3300 Watt and reach temperatures of 800°C in 5 minutes

Stainless steel drip tray

Moving Drip tray for collecting meat juices

## MATERIAL

Stainless steel

Power cable for 220-240V connection

Cast iron grill grate

Isn't that convenient?

Otto's Electric O.F.B. can be connected to a conventional power socket (socket should be rated for 16A)

Solid 32,5 x 26,5cm cast iron grid – enough room even for the biggest Porterhouse
