FUNCTION

The Smoking box makes your kitchen and bar creations appealing and unique. The Methods and Visual of producing smoke has never been this easy.

The Smoking box is an alternative to traditional smoking methods. Turning even salads, chocolate, meringue, sauces, butters and fruit into unique new culinary sensations is possible by adding a measured amount of cold smoke.

The flavor can be various types of wood chips, teas, herbs, spices and even hay and dried flowers is limited only by your imagination. It operate at extremely low cost. Simple method by just fill the Smoking Box chamber with your choice of combustibles, turn it on, light with a match or light and apply the smoke where you want!
